

Careers

At Moxx, we are looking for people who believe in open source and great technology, and can work to adapt them to our customer needs. We pride ourselves in the amount of freedom we offer to our team to explore new ideas, and in supporting them to converting those ideas into reality.

You will work with a team that combines business insights with a deep knowledge of open source applications. Other than producing work for our clients, you will also be encouraged to contribute code to open source projects. Featured ResearchWith the dual advantages of being able to hold far more information than traditional barcodes, and decoding through mobile phones, 2D barcodes have the potential to lead consumer tagging of physical objects in countries like India, where mobile phone density is far higher than penetration of specialized scanners. At Moxx, we are working to incorporate QRcode into interesting carrier and customer applications. Using QRcode readers and standard webcams, we have deployed point of sale terminals for a fraction of the cost of commercial alternatives and with zero additional hardware costs. We are looking for interns (full-time and part-time) as well as for full-time developer and analyst positions. Please mail us at careers@moxx.in with your resume.
